LINSHAD J

JUNIOR FULL-STACK DEVELOPER | MERN STACK DEVELOPER

Alathur, Palakkad, Kerala, India | +91 86064 16732 | linshadj@gmail.com
GitHub: github.com/linshadj | Portfolio: linshad.portfoliofy.io

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building web applications using JavaScript, Node.js, Express.js, MongoDB, and React. Experienced in developing REST APIs, implementing authentication systems, integrating payment gateways, managing databases, and deploying applications. Focused on building scalable, maintainable, and user-friendly web applications through practical project work and continuous learning.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, EJS

Backend: Node.js, Express.js, REST API Development, MVC Architecture

Databases: MongoDB, MySQL, SQL

Programming: JavaScript, TypeScript, SQL, C

Tools & Deployment: Git, GitHub, Postman, AWS EC2, Nginx, PM2, MongoDB Atlas

Integrations: Razorpay, PayPal, Cloudinary, Google OAuth

Core Concepts: OOP, Authentication & Authorization, Database Design, CRUD, API Integration, Responsive Design

PROJECTS

GRANTHAE – Peer-to-Peer Library & Book Marketplace

Node.js, Express.js, MongoDB, EJS, JavaScript, AWS EC2

- Developed a peer-to-peer platform that enables users to rent, buy, and sell books.
- Implemented authentication features including OTP verification, Google OAuth, and password recovery.
- Built book listings, search and filtering, cart, wishlist, order management, and rental workflows.
- Integrated Razorpay and PayPal, and implemented wallet management, refunds, coupons, and offers.
- Developed administrative features, return management, and sales reporting.
- Deployed the application on AWS EC2 using Nginx and PM2.

Live: granthae.linshad.xyz | GitHub: github.com/linshadj

TaskFlow – Task Management Application

React.js, JavaScript, HTML, CSS | Project in progress

- Developing a task management interface using reusable, component-based React architecture.
- Implementing interactive task workflows and state management with React Hooks.
- Applying React rendering and component design concepts through hands-on development.

EDUCATION

Higher Secondary Education – Computer Science

KHSS Kannadi, Palakkad, Kerala | 2022–2024 | Completed

TECHNICAL TRAINING

Full-Stack Web Development – Brototype (Ongoing)

Practical learning in frontend and backend development, databases, full-stack project development, problem-solving, and application deployment.

ADDITIONAL LEARNING

MongoDB Administration • SQL & Relational Databases • TypeScript • React.js • Data Structures & Algorithms fundamentals

ADDITIONAL PRACTICE

- Regular problem-solving practice through LeetCode.

• Building practical projects to strengthen full-stack development skills.

• Learning deployment workflows, server configuration, and database administration.
